APE 50 05/19

Ape 50 euro 4: the legend is updated

Ape 50 is now **Euro 4** compliant and benefits from important **technical and aesthetic updates** that enhance both performance and personality, for a "fresher" and more appealing look. Comfortable in a **rural context**, **quick and efficient** when it comes to **urban transportation**, Ape 50 perfectly adapts to any circumstances and can satisfy the widest range of needs, professional or otherwise. **Ape 50 range** offers alternative mobility solutions, unique when it comes to **versatility and handling**, to those who want to independently express themselves and stand out for their **originality**.

Always trendy,
increasingly user friendly

Thanks to the updated **50cc 2 stroke engine** and **new silencer** with its captivating sound, **Ape 50** now respects the strict emissions limits of the **Euro 4** standard without compromising on the performance that has always made it the ideal short-range companion. But the changes do not end there.

In fact, its **look, practicality, comfort and safety** are also **improved** thanks primarily to:

- a new **braking system**, that guarantees better comfort and feeling for the driver;
- an **instrument panel** that features updated content and more appealing, easier to read graphics;
- **LED headlights**, for better visibility and greater durability;
- a more appealing and modern **wheel cover design**;
- new interior and exterior **colour combinations**.

CROSS

THE SMART CHOICE

The trendiest version in the range, it will never go unnoticed thanks to its bold, youthful look.

VAN

THE MOST COMPACT AND EFFICIENT VAN

Useful for small, frequent deliveries in an urban context, its load volume of 1.3 m³ is easy to access and secure thanks to the locking rear door.

DECK

THE ORIGINAL

Unbeatable in terms of its compact dimensions, handling and contained consumption. Ideal for small-scale transportation in both rural and urban areas.
